

## Now That I've Seen Her

I don't want this  
don't want to fight her  
What did I do?  
I didn't come here  
to meet a girl  
who loves my husband  
Chris has a son  
He has to see him  
But if he does  
She'll be there with him  
I came here to help but what do I do?  
Now, after this, what can I do?

There are days  
There are days when your life clouds over  
and the world gets so dark  
that all at once you can't tell night from day

There are times  
When your heart cries this isn't happening  
But the truth is cold and real  
and I know the storm  
won't go away

Now that I've seen her  
There's no way to hide  
She is not some fling from long ago  
Now that I've seen her  
I know why he lied  
And I think it was better when I didn't know

In her eyes  
In her voice  
In the heat that filled the air  
part of him still lingered there

I know what pain her life today must be  
But if it all comes down to her or me  
I won't wait  
I swear, I'll fight

Now that I've seen her  
She's more than a name  
She is not some fling from long ago  
Now that I've seen her  
I can't stay the same  
Who's the man that I've always trusted?  
Now I have to know
